EDUCATION

University of Southern California

BA in Cognitive Science and minor in Web Development (GPA: 3.9)

Los Angeles, CA

Graduation Date: May 2024

TECHNOLOGICAL EXPERIENCE

IT Assistant and Data Manager

US Radiology On-Call

June 2022 - Current

- Assists hospitals and doctors nation-wide to ensure cases are read and transferred quickly and effectively
- Trains new assistants as I am the first assistant at the company
- Manages mass data from hospitals across the nation

Front-End and Back-End Web Developer

Website: LA Cafe Database

April 2023 - Current

- Coded and designed a website that features cafes in Los Angeles
- Created a LA cafe database using MySQL and implemented it into code using PHP and Javascript
- Implemented sessions and cookies to create login credentials to give specific users access to CRUD as well as a PHP mail function with HTML-formatted email
- Redesigned and coded website using Docker, Laravel, and PHP

Project Manager and UI/UX Designer

App Design: SC CONNECT

January 2023 - Current

- Created and designed an app from scratch that allows USC students to connect with each other professionally, romantically, and communally
- Chosen out of the entire class for my app to be a full semester project
- Led the team in user research and design to create an app that is useful, aesthetic, practical, and user-centric

Visual Arts and Media Intern

Kristos Campus Missions (USC KCM Club)

August 2021 - Current

- Creatively works with Figma, Adobe Illustrator, Procreate, and Canva
- Designs multiple graphics a week and manages social media

UI/UX Designer and Front-End Web Developer

"AI for Good" USC Hackathon

April 2023

- Worked with a team to design and create a web-based platform that helps users practice speaking skills with the help of AI-content generation
- Designed a high-fidelity prototype in Figma and started implementing our product using HTML, CSS, Bootstrap, JavaScript, node.js, and the OpenAI API

UI/UX Designer

UCI Designathon

March 2023

- Brainstormed and implemented innovative ideas for an app that centered on community and inclusivity with the given deadline of 36 hours
- Solved the problem of how communities do not intersect by creating and designing an app that allowed students to define their hobbies and connect with others with similar hobbies or interests
